ISSUED QUARTERLY

INDEX

VOL. 4

The 1976 index will use subject headings with cross-references. Anyone who has constructed a subject heading list or thesaurus in any area covered by Women Studies Abstracts, who would like to draw up the hierarchical structure on that subject, should mail a 3' by 5' card (7 by 12 mm) indicating the area for which the list could be prepared, using the material in this index. A summary of experience in the field of subject heading construction should also be included.

PERIODICALS ABSTRACTED AND INDEXED

Articles of at least 1000 words useful to those in women studies programs and to those studying or conducting research on the condition of women are selected. Book reviews of 500 words or longer are listed. An asterisk indicates that an abstractor has selected that journal to abstract. Periodicals particularly pertinent to women studies programs are in italics. Their addresses and prices are given on page 7 of this index.

INDEX

Numbers followed by the letter *A* refer to an abstract; other numbers refer to the additional articles in each issue. Words in capital letters, e. g., BIBLIOGRAPHIES, RESOURCES, indicate a listing of media.

See or **see also** references in italics indicate that the reference is to a subheading under the same subject heading, e. g., *Family, nuclear* **see also** *Family, extended; Family life* **see** *Family studies.*

Because of the large number of articles containing general information on education and employment in countries other than the United States, material on these subjects is indexed under the country and not under *Education* or *Employment.* In some subheadings material has been indexed under the continent, e. g., *in Asia* under *Family.* United States governmental agencies are indexed under United States.
